

Dental History Museum Zschadraß

We support the world's largest dental history museum in Zschadraß financially and help to preserve this unique museum and to make it more known!

You can help, too and that quite simply. Just by going to your website and placing a link to the website of the Dental History Museum with a note **"Dental History Museum"** and the logo from above. Here is the link to the homepage:

<http://www.dentalmuseum.eu/index.html>

You can also join the **"Association for the Care and Support of the Dental Museum"** to support the museum thereby or by giving away vouchers for a free visit of the museum.

The museum is self-financing and is therefore highly instructed on donations. Please inform your colleagues about this.

Please support the preservation of this unique facility as your colleagues do.

Thank you
Yours sincerely

Dr. Walser Dental GmbH

Tens of thousands of dentists in more than 120 countries worldwide work with WALSER® Matrices and that number increases every day...
